

UpNet Technologies Implementation Form

UpNet Technologies is an experienced integration and data transformation service provider. We have experience delivering innovative B2B collaboration using next generation EDI technology.

As AM Retail Group's EDI service provider, we will help you integrate electronically either in order to exchange the following:

- Purchase Order
- Purchase Order Acknowledgment
- Advanced Ship Notice (ASN)
- UCC128 Carton Label

UpNet can assist you in complying with the EDI requirements in all aspects of EDI. The EDI process can be integrated with your internal system and/or through a web based system; hence enabling you to transact business electronically in order to realize savings through the gain in productivity and accuracy of data.
